Coffee Enjoyment

PASSIONE®

COMPACT CONVENIENCE FOR PASSIONATE COFFEE CONNOISSEURS

How do you recognise passionate coffee connoisseurs? When they drink coffee, it has to be more than just hot and strong, because they want the whole coffee flavour! And frothed milk also has to be simply perfect. The PASSIONE® offers both - the Best Aroma System ensures the full development of coffee flavour with well thought-out features. And with the integrated Auto Cappuccinatore you can conjure up the perfect frothed milk for every variation of latte. The good thing about it - this stylish small and compact fully automatic coffee machine fits in any kitchen.

If coffee is your passion, then Passione® is the right choice!

HIGHLIGHTS:

Best Aroma System

The „Bean to Cup“ principle ensures that only the required amount of beans is freshly ground and used immediately. The pre-brewing and extraction process takes care of the perfect development of coffee flavour. The Aromasafe® lid seals tightly, to ensure that the coffee beans retain their flavour for a long time.

Modern compact design

The Passione® not only impresses with its attractive cubic design, but is also so space-saving that there is room for it anywhere. The rounded edges and the high-quality stainless steel drip tray make it a discreet eye-catcher.

UNIQUE COFFEE ENJOYMENT

Auto-Cappuccinatore

With the Auto Cappuccinatore you can prepare warm milk, hot water and, of course, light and airy frothed milk. With the rotary switch you always get just the right amount easily by hand.

A VARIETY OF COFFEE SPECIALITIES

A variety of coffee specialities

As well as the three classics espresso, lungo and café crème, you can create your own coffee specialities with milk or frothed milk.

INTUITIVE TO USE

SYMBOL-DISPLAY

LED

LED symbol display

The LED display with red symbols makes using your fully automatic coffee machine easy and convenient.

DOUBLE CUP MODE

2X

Double Cup Mode (2 cup feature)

With the Double Cup Mode you can simultaneously prepare two cups of espresso or café crème. Also good for those who drink a lot of coffee of course.

One TOUCH

One-Touch

What would you like? Café crème, lungo, or espresso? These coffee variations are pre-programmed and you can select them directly with just one touch.

ADJUSTABLE OUTLET

Height adjustable coffee outlet

So that you can also use glasses or extra large mugs, the outlet is height-adjustable up to 135 mm.

EASY TO CLEAN AND CARE FOR

REMOVABLE BREWING UNIT

Removable brewing unit

The whole brewing unit can simply be removed and is easy to clean. This makes the inside of the machine accessible too, so it can also be cleaned without problem.

AUTO CLEAN & DESCALING

Automatic cleaning and descaling programme

The fully automatic coffee machine automatically informs you on the display when it needs to be cleaned or descaled.
