Coffee Enjoyment

AROMAFRESH SPECIAL COLOUR EDITION

FRESHLY GROUND FOR FULL COFFEE ENJOYMENT –
NOW AVAILABLE IN A TRENDY COLOUR

Coffee lovers know: Freshly ground coffee gives you the ultimate flavour. Our bestseller with integrated grinder is now available in trendy copper colour!

The new Melitta® AromaFresh with high-quality glazed stainless steel parts in copper adds a very special shine to any kitchen. But the filter coffee machine is not only a real eye-catcher visually, it also has a number of technical highlights. The removable water tank makes filling and cleaning it easier. The bean container and the filter holder can also be removed. This colour version of the Melitta® AromaFresh also features an integrated precision grinder with variable grind fineness adjustment. The brewing strength can be individually adjusted, guaranteeing exceptionally flavourful coffee enjoyment. The practical timer function makes it easy to program when the freshly brewed coffee should be ready.

The Melitta® AromaFresh in a special colour version – good coffee begins with freshly ground coffee beans.

HIGHLIGHTS

Removable water tank

The transparent water tank can be removed for convenient filling and cleaning.

Integrated grinder

The integrated grinder has variable grind level settings from coarse to fine for precise grinding.

Removable bean container

The removable bean container is easy to fill and clean.

Settings for coffee strength

It's easy to set the strength of your coffee to suit your individual taste - simply select mild, medium or strong.

3-in-1 limescale protection

Only regular descaling will ensure that your coffee machine works properly. This is why the coffee machine offers you 3-in-1 limescale protection with programmable water hardness, a display showing the degree of limescale build-up and a practical automatic descaling programme.

Timer

The timer with LED display allows you to enjoy delicious coffee any time. Pre-set the brewing start of your coffee machine and allow yourself to wake up from the smell of fresh coffee. The appliance switches on automatically at the set time.

Grinder can be switched off

To prepare a delicious coffee with ground coffee the grinder can be switched off using the 'Grind Off' feature.

Drip stop

The drip stop prevents coffee from dripping after the coffee has been prepared.

Swing filter with removable filter insert

Easy to clean: Simply put the removable filter insert into the dishwasher.

Glazed stainless steel elements on filter and jug handle

The high-quality polished stainless steel elements in trendy copper colour on the hinged filter and jug handle adds a shine to every kitchen.
