

- 1 Stepless micrometric regulation system (patented by Eureka)**, the micrometric system with infinite adjustment points, the only one based on the lower burr repositioning, guarantees unparalleled grinding performances and allows to carry out maintenance operations without losing the grinding setting.
- 2 High Speed maintenance:** the typical mechanical composition of our burrholder set, that can be dismantled removing only 9 screws, permits to quickly replace and clean the burrs as well as a remarkable time and coffee saving.
- 3 Anti-Clump & Electrostaticity System (ACE)** which prevents the clumps formation and regulates the coffee outflow.
- 4** Fixed fork for "Hands-free" operations.
- 5** Manual activation.
- 6** 50 mm burrs.

Recommended grinding modes

SUGGESTED USE:
Espresso

Hardened steel burrs (50 mm),
with a grind productivity (gr/s)
of: 0,9 - 1,5 Espresso

Stepless micrometric regulation system
(patented by Eureka), The micrometric system
with infinite adjustment points, the only one
based on the lower burr repositioning,
guarantees unparalleled grinding performances
and allows to carry out maintenance operations
without losing the grinding setting.
